

Book Look

MARCH is a notable month
in the library.

**We celebrate Music
Month, Women's History
Month, and Spring.**

This month we continue our study of the Dewey Decimal Classification System. Melvil Dewey invented the numbering system we use in the library. The system divides all books into **TEN** categories based on subjects. See our Eastview Library homepage under What's New? to learn more about the Dewey Decimal Classification System (DDCS).

Second through Fifth Graders continue to work this quarter to meet their A.R. goals. Students achieve **Wall of Fame** status with 85% correct or higher average on quizzes AND 100% of the assigned points plus meeting or exceeding their book level goal. Quarter 3 ends on **March 22nd**.

Other important dates with links on
the Library homepage:

March 1 Read the Most

March 2 Dr. Seuss' Birthday

March 2 Iditarod race begins

We welcomed author, JoAnn Early Macken, to Eastview on Wednesday, **February 13th**. She gave us wonderful information about being an author, her newest books, and what inspires her to write. Ask your child about her visit!
